### President's Message:

President's note 6/16

With the heat affecting us early this year, let me suggest a way to stay cool. Every last Wednesday of the month we hold a club meeting in an air conditioned room. Come join us for some heated discussion on ways to improve the club.

The October 1&2 carving festival is quickly approaching. We are seeing some enthusiasm in the carving world toward coming to the show. We will be discussing issues on how to prepare for it and ways to make it better. The more people we have in those discussions the better our decisions will be.

We are obtaining new opportunities to have some of our members represent the club and show their talents. If any member recognizes any opportunity for us continue this way of advertisement please bring it to our attention.

We are continuing to assess different ways of advertising the club. The more people we can get to our festival the higher our membership will be and possibly more sales for our vendors. The more people we have attending the more successful our show will be. We look forward to seeing you at the meeting.

Gene
